Dear Parent/Guardian

RE: Use of Aerosols.

I am writing to clarify the rules regarding the use of aerosols in the Academy and to ask you to re-enforce this message to your son/daughter.

It is against the rules for students to have any type of aerosol in their possession while in the Academy. If students want to use a deodorant after a P.E. lesson it must be a roll on one and not a spray of any kind.

There is a serious Health and Safety issue regarding the use of aerosols and we have several members of the Academy, both staff and students, who have a genuine medical condition that means they could have a serious reaction if aerosols have been used in the building.

I am sure I can rely on your support by explaining this to your son/daughter and re-enforcing the importance of observing this rule.

Thank you for your continued support.

Yours faithfully

Darren Gadsby
Vice Principal
