

## Topics to Revise for Foundation Tier Paper 2.

Below is a list of topics that are likely to come up on the calculator paper. Against each topic you will find a clip number. This is the clip number from the Maths watch disk that you have been given.

Substitution into formula.	Clip 66
Plotting graphs	Clip 113, 116
Transformations ie rotations, reflections and Translations.	Clip 74 to 77
Probability.	Clip 40, 90, 91, 132,
Drawing pie charts including calculating the angle.	Clip 86
Using a calculator.	Clip 63
Ratio.	Clip 61, 94
Angles in parallel lines and angles in polygons. Areas of shapes and surface area. including circles	Clip 67 to 73
Scatter graphs	Clip 87
Mean of data from frequency tables including group data.	Clip 133
Using estimation to check answers.	Clip 101
Trial and improvement.	Clip 110
3D coordinates and midpoints of lines.	Clip 78, 120
Constructing shapes.	Clip 80
