

Kingswood Vocational Core Competencies

Knowledgeable

Employable

Skilled

1

Creativity

The ability to think outside the box, generate new ideas, and innovate.

Encourages students to approach problems and tasks in novel ways, leading to innovative solutions and improvements in their work.

2

Digital literacy

The capability to use digital tools and technologies effectively.

Critical in today's digital age for performing a variety of tasks, from basic computer use to advanced technical operations in various vocational fields.

3

Problem Solving

The capacity to analyze situations, identify issues, and develop effective solutions.

Enables students to tackle challenges systematically and think critically to resolve issues that arise in their work.

4

Team Work

The ability to work collaboratively with others towards a common goal.

Promotes a collaborative work environment, improves productivity, and leverages diverse skills and perspectives.

5

Resilience

The strength to recover quickly from setbacks and adapt to change.

Helps students maintain perseverance and a positive attitude, crucial for overcoming obstacles and maintaining progress in their careers.

6

Communication

The ability to convey information clearly and effectively through various means (written, verbal, non-verbal).

Essential for collaborating with others, understanding instructions, and expressing ideas clearly in the workplace.

7

Organisation

The skill of planning, structuring, and managing tasks and resources efficiently.

Helps students manage their workload, meet deadlines, and maintain a systematic approach to their responsibilities.

8

Initiative

The ability to take proactive steps and act independently without needing constant direction.

Encourages self-motivation and the ability to start projects, solve problems, and overcome challenges autonomously.
